Salvage of Pumps and Motors

New larger capacity pumping equipment has been installed at our 2 major pumping stations following the recent scheme expansion.

Expressions of interest are sought from BIL customers who may wish to purchase some or all of the equipment which has been replaced.

The equipment is in good condition and in summary is as follows:

Gomersal 2 No Pumps 110 kW motors, pumping up to 190 L/S at a head of 38 m. These pumps are complete with motors and variable speed drives, some SS pipework, motorised valve, gear operated valve and non-return valve and mounting frame.

Airfield 2 No Pumps and 330 kW Motors and their mounting frame pumping 525 L/S at a head of 49m with 1 variable speed drive.

Please submit expressions of interest to Paul Shanks by 14 September.

Please direct all enquiries to Neville Skipworth or Paul Shanks on the numbers below.
