Change of Water Source

On Monday 27th June 2022, BIL's water source will change to filtered Swan Reach pipeline water. At the current low flow rates, it may take a few days before you notice a change.

SA Water has advised that we will likely be on this water source for a month or two, possibly longer.

Swan Reach pipeline water is chloraminated. Please review and consider modify your BIL water use practices during this time if you determine this is necessary.
