<b>How our Charges are Determined</b>	
BIL is a community rated scheme operated to deliver water to customers at the lowest price sustainable over the long term.	
Water use charges vary by the same proportion and take effect at the same time as any variation in the charges BIL is liable to pay under the Water Transport Agreement with SA Water (Clause 27 of the Customer Contract).	
Variations to water use charges outside of Clause 27 are by a Special Resolution of shareholders of BIL.	
Variable and fixed infrastructure charges imposed on BIL by SA Water are passed through to BIL customers through the water use charges.
